

## **JACOB ERLING**

(862) 222-2892

jerling1989@gmail.com

www.jacoberling.com

A goal oriented Full-Stack Developer that takes pride and responsibility in everything I do. Strong passion and focus for Front-End Design with an eye for detail down to the pixel. Independent spirit who also works well with team members. Proficient in HTML, CSS, JavaScript, JQuery, and Bootstrap with a curious mind to always adapt new frameworks & technologies.

## **EDUCATION**

### **Rutgers, the State University of New Jersey**

**(05/2017 - 08/2017)**

*Rutgers Coding Bootcamp - Javascript Full-Stack Web Development*

An intense Full-Time 12 Week coding bootcamp dedicated to building Web Applications. Skills learned consisted of HTML, CSS, Javascript, jQuery, Bootstrap, Handlebars, Node.js, Express, Handlebars, React.js, Firebase, MySQL, & MongoDB.

## **RELEVANT EXPERIENCE**

### **Freelance Web Design**

*HTML, CSS, PHP - Wordpress - Internet Marketing*

The previous companies I worked for decided to take advantage of my web design skills and hired me to make their websites. I made a company website for JAJ Construction using HTML, CSS, jQuery, and PHP. The Window Group required an ecommerce site to sell window parts build with the Wordpress CMS Platform. I also had experience with my own ecommerce using the Shopify platform and utilizing advertising tools like Google Adwords and Facebook Ads to target an online audience.

## **WORK EXPERIENCE**

### **The Window Group Inc.**

**(07/2012 - 04/2017)**

*Sales Representative at The Window Group Inc*

Traveled to various construction projects to price out contracts for potential clients. This often included investigating the client's needs, demonstrating our product, handling objections, and closing the sale. Once a contract was obtained my duties were extended to maintaining client relationships and overseeing any potential issues with the installation.

### **JAJ Construction LLC**

**(08/2008 - 05/2012)**

*Carpenter / Foreman*

Window and Door Installation throughout the New York City metropolitan area. Started out as an assistant, I worked my way up to become a Carpenter and eventually Foreman. As a Foreman I learned the value of hard work and how to be a leader. Daily tasks involved critical thinking, problem solving, and heavy planning to lead a group of 4-6 carpenters.
